EXPERIENCE

OneLab Ventures — Software Development Engineer II (GenAI Full Stack Engineer) Jan 2023 – Present

[Pune, India](#)

- Designed and developed scalable full-stack applications using React.js, React Native, Node.js, and TypeScript, serving thousands of active users.
- Built and optimized RESTful APIs with Express.js and NestJS, achieving approximately 30% improvement in API response performance.
- Developed AI-powered features including ATS resume scoring and mock interview systems using OpenAI and Gemini APIs, with prompt engineering; built AI workflow automations with n8n and voice features using ElevenLabs.
- Built an OCR-to-LLM document intelligence pipeline using PaddleOCR and Groq-hosted LLMs to extract structured data from PDFs and document images; used Gemini multimodal models for image and document understanding.
- Deployed applications on AWS (EC2, S3, RDS, SES, Cognito, Amplify) with Docker; integrated a payment gateway for secure transactions and managed credentials and API keys securely with AWS Secrets Manager.

HIE-HQ — Software Developer

Oct 2022 – Dec 2022

[Noida, India](#)

- Developed performance-focused web applications using React.js, ensuring high responsiveness and smooth user interactions.
- Engineered reusable, modular UI components that accelerated development velocity across the team.

Logion Solutions — Junior Web Developer

May 2022 – Sep 2022

Ahmedabad, India

- Delivered 7+ client projects including React.js applications and fully responsive web platforms on schedule.
- Applied modern frontend development practices to elevate user experience and interface quality across all deliverables.

PROJECTS

YouSmart Platform — AI Career Platform

- Built a full-stack AI-powered career platform featuring ATS resume scoring, personalized mock interviews, and real-time AI feedback.
- Integrated OpenAI APIs and automated AI workflows to deliver tailored, context-aware interview coaching experiences.

Nexiun — AI Social Platform

- Developed an AI-powered social networking application using React Native and Node.js with real-time chat capabilities.
- Implemented image processing for user-uploaded media, and multilingual features to support a diverse, global user base.
